April 2026

Dear Hiring Manager,

With more than six years of professional experience in cybersecurity and a Master's Degree in Information and Communication Technology, I have developed strong expertise in Threat Hunting, Threat Intelligence, Security Research, and Digital Forensics & Incident Response (DFIR). My career reflects both deep technical knowledge and the ability to align security initiatives with strategic objectives at the national CSIRT and CERT level.

Currently, I serve as **Principal Consultant Cyber Security at Axiom Breach** and as **Director of Cyber Security Analysis at the National Authority for Cyber Security of Albania**. As a **hands-on technical director and Head of Incident Investigations at national level since 2022**, I have led masterclass-level operations against state-sponsored threat actors from **Iran, Russia**, and other advanced persistent threat groups. I bring deep expertise in open-source technologies (ELK, Security Onion, Wazuh, MISP, OpenCTI) and commercial solutions (Microsoft Sentinel, CrowdStrike) to deliver effective detection, monitoring, and response. As **Technical Lead for NATO Cyber Coalition and Locked Shields 2024–2025–2026**, I have directly contributed to enhancing the resilience of critical infrastructures across the Western Balkans.

I hold multiple elite industry certifications: *CEH Master*, *CCISO*, *OSTH (OffSec)*, *CTIA v2*, *ECIH*, *CHFI*, *CompTIA Security+*, and *ISO/IEC 27001 Lead Auditor (PECB)*. My published malware analysis reports and threat research demonstrate advanced capabilities in reverse engineering (x64dbg, IDA Pro, Ghidra), dynamic malware analysis (FlareVM, SANS508, Cuckoo, Any.Run), dark web intelligence, adversary tracking, and SIEM orchestration. I have authored and published over 25 cyber reports publicly available through aksk.gov.al.

My efforts have been internationally recognized: **1st Place – Global Cyber Drill GISEC 2024 (108 countries)**; **1st Place – Western Balkans Live-Fire Cybersecurity Exercise 2025**; **1st Place – Western Balkans Cyber Drill**.

I am enthusiastic about contributing my expertise in Threat Hunting, DFIR, and Threat Intelligence to your mission. Thank you for your time and consideration. I look forward to discussing how I can add value to your team.

Warm regards,

warm regards,
ADRIANO LLESHI
