01 PROFILE

Director-level cybersecurity leader with deep, hands-on expertise in incident response, malware analysis and digital forensics. Since 2022 has led national-level incident investigations against state-sponsored APTs from Iran, Russia and other threat groups, architecting Albania's national detection and response capability. NATO security clearance held. GCFA, OSTH, CEH Master, CCISO and ISO 27001 Lead Auditor certified. Technical Lead — NATO Cyber Coalition & Locked Shields 2024–2026.

02 EXPERIENCE

Director of Cyber Security Analysis

JUL 2024 – PRESENT

National Authority for Cyber Security · Tirana, Albania

- Architected and built Albania's National Security Operations Center (NSOC) and CSIRT from the ground up — designing the platform stack across ELK, Security Onion, Wazuh, MISP, Microsoft Azure and Sentinel.
- Led hands-on response to 17+ highly sophisticated incidents attributed to Russian and Iranian state-sponsored APTs, defending national critical infrastructure end-to-end.
- Protected national infrastructure by producing and disseminating CTI, IOCs and adversary TTPs to critical-infrastructure operators across the country.
- Directed national Threat Intelligence operations; served as Technical Lead for NATO Cyber Coalition & Locked Shields 2024–2026.
- Trainer of the Trainers — Western Balkans Critical Infrastructure Operators.

Principal Consultant Cyber Security

JUN 2024 – PRESENT

Axiom Breach

- Adversary simulation, penetration testing, advanced TTPs, threat intelligence, threat hunting and incident response to assess and enhance organizational security posture.

Head of Malware Analysis & DFIR

APR 2023 – JUL 2024

National Authority for Cyber Security · Tirana, Albania

- Led national-level incident investigations end-to-end — identifying threat sources, reconstructing attacker TTPs and preventing follow-on attacks.
- Directed Purple Team adversary-simulation exercises, aligning offensive testing with detection engineering to close real gaps.
- Performed advanced malware analysis, reverse engineering and memory forensics on targeted and commodity threats.
- Authored technical malware-analysis and forensic reports, feeding IOCs and detection rules into national defensive tooling.

Cybersecurity Trainer

SEP 2023 – JUN 2024

Protik · CyberTiranaAL3 Program

- Delivered CTFs and cyber drills covering OSINT, social engineering, SIEM/EDR, advanced pentesting and web application pentesting.

Incident Response Specialist

JUL 2019 – APR 2023

National Authority for Cyber Security · Tirana, Albania

- Monitored, triaged and responded to cyber threats targeting national infrastructure across a 24/7 operations tempo.
- Conducted ISO/IEC 27001 audits on critical infrastructure, assessing controls and driving remediation.
- Performed first-line forensic analysis and evidence handling, escalating and documenting confirmed incidents.

HIGHLIGHTS

- 1st Place — Global Cyber Drill GISEC 2024
- 1st Place — Western Balkans Live-Fire Cybersecurity Exercise 2025
- 1st Place — Western Balkans Cyber Drill
- National-level APT investigations since 2022
- NATO exercise Technical Lead 2024–2026
Cyber Coalition 2023–2026
Locked Shields 2025–2026

FRAMEWORKS

MITRE ATT&CK · Cyber Kill Chain · NIST · ISO/IEC 27001 · Purple / Red / Blue Team · ICS / OT Security

03 EDUCATION

Master’s · Information & Communication Technology
University of Tirana

2018 – 2020

Bachelor’s · Information & Communication Technology
University of Tirana

2015 – 2018

04 TECHNICAL SKILLS & PLATFORMS

CTI / OSINT / Dark Web

SocRadar, Recorded Future, SpiderSilk, ReSecurity, Thinkst Attack Surface, Google Threat Intelligence, VirusTotal Premium, BAE CTI, MISP · CVE Intelligence · Dark Web Investigation · Bitcoin Tracking

XDR / EDR

Microsoft Defender for Endpoint (MDE), SentinelOne, Trend Micro, Cortex XDR (Palo Alto), Cybereason, CrowdStrike Falcon

SIEM

Elastic / ELK Stack, Splunk, Wazuh, Microsoft Sentinel, Security Onion

Digital Forensics

Magnet Axion Cyber, FTK, Autopsy, Eric Zimmerman Tools, Volatility

Malware Analysis

FlareVM, SANS508, x64dbg, IDA Pro, Ghidra, Cuckoo Sandbox, Any.Run, REMnux, MISP, OpenCTI

05 PUBLICATIONS & CYBER REPORTS

Selected incident, threat and malware analysis reports published at aksk.gov.al (35+ total).
